Trauma System Advisory Committee 3760 South Highland Drive Salt Lake City, UT 84106 5th Floor Board Room

DRAFT Meeting Minutes

Monday, June 24, 2013

Committee	Tom White MD, Craig Cook MD, Mark Dalley, Stephen Morris MD, Deanna Wolfe RN, Nancy
Members:	Chartier RN, Kevin McCarthy; Paramedic, Clay Mann PhD, Jason Larson MD, Holly Burke RN, and
	Hilary Hewes MD.
Excused:	Dr. Craig Cook, Dr. Jason Larson and Dr. Stephen Morris.
Guests:	Sue Day, Kris Kemp MD and Lyle Odendahl
Staff:	Shari Hunsaker, Iona Thraen, Peter Taillac MD, Jolene Whitney, Bob Jex, Whitney Johnson Levano,
	and Suzanne Barton.
Presiding:	Dr. Tom White

Agenda Topic	Discussion	Action
	<u>Welcome</u>	
Welcome	Dr. Tom White welcomed the Committee to the meeting and	
	acknowledged guests present.	
Introduction	Jolene Whitney introduced Suzanne Barton who replaced Annalyn	
	Beers and welcomed her to the TSAC Committee meeting.	
	Action Items:	
Approval of	The March Trauma System Advisory Committee meeting minutes were	
Minutes		approve the March 2013
		meeting minutes. Deanna
		Wolfe seconded the motion.
		All present members voted in
		favor of the motion. No one
		opposed; None abstained.
Recognition	Jolene Whitney presented State of Utah Eternal Flames to Dr. Tom	Motion carried.
Awards	White, Dr. Clay Mann and Kevin McCarthy as a token of appreciation	
Awarus	for the years of effort they have put into the committee and our thanks	
	and appreciation for your input.	
Open Meetings Act	Lyle Odendahl announced that the Legislature makes us review the	
The second second	Opens Meetings Act for good reason. It has been on the books for 34	
	years now and the penalty for violating the Open Meetings Act has	
	recently had significant changes. Lyle distributed the 2013 Utah Open	
	and Public Meetings Act and quick reference to the Trauma Systems	
	Advisory Committee and staff to follow along.	
	Jolene Whitney stated that the quorum requirements for the TSAC are	
	half plus one. Notice to the public has to be filed 24 hours in advance	
	of the meeting. The agenda has to be specific and new items not on the	
	agenda can be discussed but not voted upon. The date, time and the	
	place must be displayed. Pending minutes need to be made available to	
	the public within 30 days. Recordings of meetings must be placed on	
	website within 3 business days. When items are voted upon, record	
	each vote by individual member. The name of each guest needs to be	
	given prior to speaking. Procedure needs to be in place for approving	
	minutes which after approval will become an official record. Electronic	
	meetings are encouraged; must have a rule in place. There is no	
	requirement to allow the public to comment at the meeting. It is a Class B Misdemanner to violate the Open Meetings Act	
	B Misdemeanor to violate the Open Meetings Act.	

G/ / T :	TI WILL INC.	
Status on Rule	Jolene Whitney announced that the Bureau has gone through a	
Revisions	revision of all the rules associated with EMS that included licensing,	
	trauma and training. Thirteen sets of rules have gone through revisions	
	and review by various stakeholders the past 18 months. They will be	
	ready for public comment July $1st - 30^{th}$ of July and will be effective	
	August 7 th . We will be making some changes to the trauma rules and	
	will bring that back to the committee for discussion.	
	Dr. Peter Taillac reported that his task force has been working up to a	
for the State	year on a draft of protocol guidelines for the State to be placed on the	
	website for EMS agency medical directors to use as they see fit. The	
	guidelines will be reviewed and updated regularly by the committee.	
	They will be available the first week of July and will be presented to	
	the EMS Committee for comments and input and after that, it will be	
	published widely as a draft document to all the EMS Agencies and	
	Directors for comments and updates with a 30 day comment period.	
	The final copy will be published on the website by August 15 th . Peter	
	shared a draft of the Guidelines with TSAC members. Jolene reminded	
	them that they received the draft the last meeting and have had time to	
	submit comments and suggestions to Peter especially those that are	
	related to trauma. The guidelines have been enhanced with a very	
	thorough and complete Pediatric update.	
Certificate of	Dr. Peter Taillac recognized Kevin McCarthy in honor of his	
Achievement	outstanding dedication and commitment as a member of the Utah	
	Protocol Model Guidelines Task Force.	
Status on PI	Shari Hunsaker gave an update on the Performance Improvement	
Process	process. The workshops are scheduled in Cedar City on August 12 th ,	
	Brigham City on August 19 th and Price on August 26 th . The workshops	
	will run from 10 am – 4pm. We have been approved by Professional	
	Development to offer 4 CME for EMS professionals that attend the	
	workshops. Additional pediatric blood pressure cuffs, stethoscopes and	
	other equipment are needed to facilitate the skills lab. The Cedar City	
	workshop will be held at Southern Utah University. Brigham City will	
	be at USU (Brigham City Campus) and the Price workshop will be	
	held at Castleview Hospital with no charge for hosting our workshop.	
	The agenda will be finalized in the next few weeks. Dr. Peter Taillac	
	commented that we are really trying to "preach the gospel" on	
	performance improvement and we are giving them kits to help show	
	them that it is really not hard to do the process and generate an interest	
	in it. We are also going to push out the concept of pediatric vital signs	
	and hypertensive resuscitation and appropriate fluid management with	
	trauma patients. Shari commented that their goal is to help guide EMS	
	agencies and hospitals on how to develop a trauma PI plan. Our goal is	
	to have them walk out with something in hand to help them develop	
	and implement a PI plan for their agencies. The course has been	
	created and registration is available on UTRAIN. Marketing is being	
	done and detailed emails have been sent out to EMS agencies and	
	hospitals, and flyers are being made for distribution also. Shari	
	commented that she has replaced Josh Legler as the Data Manager and	
	she has not found her replacement as of yet.	
Status on Trauma	Shari Hunsaker reported that the selection committee has been	
Registry	identified. They have met twice and she is currently working on the	
nacgisti y	scope of work for the RFP for the new software solution and hopes to	
	have it done by August 1st. We are submitting monthly on the trauma	
	registry through E-Trauma base, but it is not as timesaving as we were	

lead to believe. The CDM has offered us some vaporware that is different than software. The hospitals are submitting their data thru E-TraumaBase and then it is being manually copied and deposited in to the State repository. We are looking for software with more modules so if we decide to add stroke or stemi or a rehabilitation module in the future, we can. EMSC Emergency Department Peds Designation Email 100% response rate on the ED pediatric readiness assessment. She has a profile of their pediatric readiness and can share the aggregate data for how the state did but not individually. The emergency managers were very helpful in getting to 100% and we are going to go to the UDAC meeting and share the data with them and thank them for their assistance. The state rate is 74 out of 100 and the national rate is 70 out of 100, so we did better than the national average. The lower volume hospitals received lower scores and midlevel scores for the middle volume hospitals and the higher volume hospitals received higher scores. Compared to the national level, we were above average on all levels for the state. Deanna Wolfe made a request that the information be sent to the Emergency Department
TraumaBase and then it is being manually copied and deposited in to the State repository. We are looking for software with more modules so if we decide to add stroke or stemi or a rehabilitation module in the future, we can. EMSC Emergency Department Peds Designation Whitney Levano gave the update that all 46 hospitals responded and they got 100% response rate on the ED pediatric readiness assessment. She has a profile of their pediatric readiness and can share the aggregate data for how the state did but not individually. The emergency managers were very helpful in getting to 100% and we are going to go to the UDAC meeting and share the data with them and thank them for their assistance. The state rate is 74 out of 100 and the national rate is 70 out of 100, so we did better than the national average. were above average on all levels for the state. Deanna Wolfe made a
request that the information be sent to the Emergency Department
request that the information be sont to the Emergency Department
Director and the Emergency Preparedness Coordinator. It will have to
be approved by NEDARC. Another thing that Whitney mentioned that
Emergency Medical Services for Children has a series of performance
measures that we are asked to meet and we report on them each year
and Utah does very well with these. These measures are online/offline
medical direction for EMS, protocols for ambulances, air facility
transfer agreements and trauma designation in our state. The goal is
50% trauma designation and we are 3 to 4 hospitals short of achieving
that goal. Another performance measure is a medical designation for
pediatrics and our state does not have that. In our state there is a
designation (rule 426) for a resource hospital or trauma center. We are
working to identify the best route to develop this requirement.
Discussion among the Committee members took place.
Designations Status Jolene reported that we have three facilities at level 1, three at level 2,
three at level 3 and nine at level 4 and one at level 5. We have nineteen
facilities that have been designated as trauma centers and we have ten
facilities that we are actively working with their PI minutes, surgeons,
ED's and coordinators. We should be at 29 this time next year.
